Lake Tholocco

Our Mission: The Fort Rucker Fitness Program is dedicated to serving the needs of our patrons by providing professional instruction, during safe, effective, well balanced and fun workouts. We strive to offer a variety of classes that focus on strength, cardiovascular conditioning, flexibility training, and mind/body awareness. We believe in promoting the general health of an individual on a personal level, with all the components to make your workout a more effective and enjoyable experience.

Class Descriptions

 Begin to make your fitness goals a reality, with no complicated movements to learn, a motivating group environment, excellent instructors, and music that begs your legs to pedal. You'll get a heart pounding yet low impact workout while maintaining the ability to go at your own pace. Training sessions will be wither interval, endurance, strength or Race Day rides. Appropriate for all fitness levels **Water bottle is required for class! **If this is your first time, please come at least 10 minutes early for proper bike set up. ****

Boot Camp 2.0— your cardiovascular and muscular fitness will be challenged in this class which will incorporate calisthenics, free weights, plyometric and an assortment of equipment for a variety of exercises. ****please bring water**

AbsoGlutely— A lower body and core workout that includes weights and cardio to tighten and build common problem areas. This class is a high energy, fun way to work the “last to be seen” area.

Ultimate Conditioning— combines weightlifting, cardio and functional lifting. The domains of this class include cardiovascular/respiratory endurance, stamina, strength, flexibility, power spend agility, balance, coordination and accuracy. Make time fly with this intense workout while having fun.

Pure Strength—Build strength, add definition, increase bone density and decrease body fat by **INCREASING** lean muscle. Research has proven that by adding lean muscle to the body you can speed up your metabolism and burn more calories working out and at rest.

Tabata- interval training is one of the most effective types of high intensity interval training. Through a variety of simple, yet intense exercises, each class will blast the calories and provide noticeable results in a short amount of time. Whether your goal is muscle tone, weight loss, or both, this class will provide what you are looking for.

metafit HIT TRAINING is *the* true HIIT workout and is designed to boost your fitness level, rocket your energy levels & get massive results in the shortest amount of time possible. Metafit is all bodyweight moves and is only 30 minutes long! The “afterburn” from a Metafit workout lasts a minimum 24 hours and up to 48 hours after the workout! That means you are burning fat even in your sleep!!

Circuit Blast— use a variety of equipment to move through a series of exercises designed to challenge both your hear and all major muscle groups with no choreography.

Yoga Flow Also known as vinyasa (flow) yoga. A series of poses performed sequentially on one side and then repeated on the other side Movement is synchronized with the breath. Between each side, the student performs a mini-sequence called a “vinyasa”. A vinyasa is string of 4 poses: straight arm plank (high push up), chaturanga (low push up position), a back bend (upward facing dog or cobra), and, finally, downward facing dog. Usually very sweaty and can be performed at a fast or slow pace.

Metcon- (short for metabolic conditioning) is a high intensity, full body workout which is designed to train stamina, endurance and conditioning. Combining functional movement patterns and weight lifting techniques with short rest periods in between work intervals, Metcon is extremely effective for fat loss and improving fitness.

—combines the muscle-sculpting, core-firming benefits of Pilates with the strength and flexibility advantages of yoga. Choreography is designed to uplifting music. PiYo is a fat-burning, high intensity, low-impact workout.

A water bottle is strongly recommended for each class.

Units may request a private PT session with an instructor. Please contact the Fitness Coordinator at Nicole.r.crowley4.naf@mail.mil for reservations

Children are not permitted to attend fitness classes as a participant or spectator under the age of 13.

We apologize for the inconvenience.

Class Fees

\$3.50 per class
