## S.T.A.R. KIDS PROGRAM

The **Fort Rucker EMS S.T.A.R. Kids Program** allows EMS crews who would respond to the child's home during medical emergencies to become acquainted with the child, the parents, and the equipment he or she uses before a medical emergency arises. It also allows the child to meet some of the paramedics who might respond when they are having an emergency and become familiar with how EMS crews look, act, talk, and can tour the ambulance so it's not such a scary place for them.

A S.T.A.R. Kid is any child that requires Special Technology Assisted Resources. This may include medical equipment such as:

- Feeding Tubes
- Apnea Or Special Monitors
- Medication Pumps
- Other Technological Assistance

It also includes patients who have:

- Seizures
- Autism
- Diabetes
- Other Medical Or Psychological Conditions
- ADHD

## Serving The Children of Those Who Serve Us All

### Who Are We?

MCEC is a 501 (c)(3) nonprofit organization that solely exists to help the military-connected child thrive in the face of transition and separation.

### Our Mission

MCEC supports all military-connected children by educating, advocating, and collaborating to resolve education challenges associated with the military lifestyle.

### Our Vision

Every military-connected child is college-, work-, and life-ready.

### Our Community

MCEC is a professional coalition with a diverse community consisting of public school districts, private schools, colleges, universities, small businesses and corporations, nonprofit organizations, military commands and installations, military families, and caring individuals from local communities across our Nation.

### Our Work

The Military Child Education Coalition® (MCEC®) delivers programs, services, and professional development to meet the needs of military-connected students, parents, and professionals.

### Our Programs

MCEC believes that enabling students to thrive and succeed in our education system by providing them the tools necessary to become college-, work-, and life-ready, is of the highest importance. *Student 2 Student®* programs at the elementary, middle, and high school levels bring military and civilian children together to welcome new students, support academic excellence, and ease transitions as students pass in or out of schools.

MCEC empowers parents to become informed, proactive supporters, allowing them to make a positive impact in the needs of their children. *Parent to Parent™* provides informative and interactive parent workshops to groups and organizations in the local community that address academic, social, and emotional issues associated with a military family lifestyle.

MCEC values the importance of professionals possessing the knowledge necessary to identify and respond to complex needs of military-connected children. Across disciplines, such as education, healthcare, childcare, and business, MCEC trains professionals to address the unique challenges facing our military-connected children. All training is grounded in research and presented by highly skilled instructors.
